

AUDIT SENIOR MANAGER (Healthcare):

Do you want more work life balance, but also want to be part of a large dynamic firm based in the Seattle area with the opportunity for advancement to Partner?

We are looking for a talented individual that has experience performing independent financial statement audits of hospitals to join our growing healthcare practice. We currently work with many of the top healthcare organizations in the region, including hospitals and health systems, small and large clinics, community health centers, physician groups, HMO's, PPO's, provider care, managed care, behavioral health organizations, not-for-profit and for-profit retirement centers, continuing care retirement centers, assisted-living facilities, skilled nursing facilities, freestanding and hospital-based home health agencies, Biotech, BioPharmaceutical and surgery centers.

Hospital independent financial statement audit experience is a must. We are offering the opportunity for an enthusiastic, entrepreneurial audit professional with 8+ years of recent public accounting experience performing independent financial statement audits of hospitals to join our team. Excellent technical and supervisory skills, Bachelors of Accounting Degree and a CPA License are required. Will also exemplify values of honesty, integrity and quality, as well as a commitment to excellent client service.
